

BothyKnits by Jackie Smith

Current product range

LADIES' LAMBSWOOL/SILK COLLECTION:

Spun in Scotland, this is a luxurious blend of 50% supersoft lambs wool and 50% silk yarn which has a multicolour tweed effect and offers a lightweight yet warm soft feel. The finished fabric drapes wonderfully when worn. Suitable for 3 season wear and offered in a wide range of colours and sizes. Yarn wrappings available on request.

NEW DOLMAN SLEEVE SWEATER:

The Dolman sleeve has recently made a comeback, which is good news for ladies who are fuller in the bust or apple shaped. The drop shoulder and deeper sleeve is more forgiving in the areas mentioned above as it is less fitted but without the issues of too much fabric under the arms as with a full batwing sleeve. Centre front/back seams draw the eye inwards. Contrast welt/cuff/collar detail all in doubled over stocking stitch bands. Collar can be worn floppy or turned over to make it stand higher across the shoulder. The welt can be moved over the hip to create a blouson effect. Sizes S-2XL

NEW GODET BACK SHAWL COLLAR JACKET:

HAND FINISHED with a semi-swing drape. More of a jacket than a cardigan. Edge to edge style with large turned back fisherman rib shawl collar which can be brooched if required. Set in sleeves with turn back fisherman rib cuffs and button detail. The back incorporates an inverted godet pleat with button detail down centre which adds effect to the piece. A real designer style. Sizes S-2XL

NEW THE 'WRONCHO':

There are many examples of wraps/shawls out there, but here's Jackie's HAND FINISHED version which can be worn as a poncho or undo the buttons at the side to create a large wrap- hence the 'wroncho'! The idea came as a result of the construction of her ever popular Panel Jacket to create a more exclusive piece and something a bit different to styles which comprise a single length of woven or knitted fabric. There are 2 contrasting colours making up the main body and borders on 3 sides, which are then finished with edging and joining with a 3rd complimenting colour to complete the look. 2 sizes available: S-M and L-XL. Has a tartan

look without an all over pattern. Lightweight yet warm and the silk content of the yarn creates a lovely drape.

COLOUR BLOCK TOGGLE NECK GODET TUNIC:

Flattering fit featuring 2 contrast colour godets at sides which create shape and skim the hips. This makes the hem fall slightly asymmetric and dips very slightly at the sides, but the effect is not as defined as the Shark Bite Hem Tunic. Long sleeves. Contrast colour borders and loose shallower cowl neck with toggle fastening. Sizes S-2XL

HI-LOW OR REGULAR HEM COWL NECK TUNIC:

This follows along the 'A' line design of the Split Cowl Neck Tunic, with contrast edgings; cuff tabs and larger cowl neck as in the Shark Bite Hem Tunic. Available in 2 styles; regular where the sides vents are equal length or hi-lo for more coverage at the rear. Sizes S-2XL

SHARK BITE HEM COWL NECK TUNIC:

Oversized Cowl Neck Tunic which drapes downwards at the sides forming a hemline that looks a shark has literally bitten into it! This popular design follows a classic A line shape which drapes wonderfully over the hip area and skims the tummy area. This is suitable for many body shapes. Set in ¾ length sleeves with roll back contrast colour cuff. Contrast colour cowl neck set into a rounded V shape. Front and back seaming in contrast colour draws the eye toward the centre. Sizes S-2XL

PANEL JACKET – HAND FINISHED:

An evergreen favourite. Generously oversized with ¾ sleeve; all round vents and shawl collar. Edge to edge style which also allows broaching etc. Hand crocheted joins in contrast colour for a classic yet contemporary look. Flatters any size and shape. Sizes S, M & L.

ASYMMETRIC FASTENING LONG SLEEVE CARDIGAN:

Wide round neck with asymmetric 6 button fastening at front and deep centre vent with bow detail at back. Contrast edging. Longer length 'A' line shaping for maximum drapeage and flattering fit over hip. Sizes S - 2XL.

ASYMMETRIC SPLIT COWL NECK 'A' LINE TUNIC:

Developed from an earlier standard cowl neck tunic design. Colour block sections with asymmetric split neck and button decoration. Contrast edging. Sizes S – 2XL

SUPERSOFT LAMBSWOOL COLLECTION:

100% supersoft superior quality lambs wool spun in Scotland. The yarn is approximately 3ply in weight. This offers a wonderfully soft and lightweight feel yet maintaining warmth without bulkiness. Vast colour choice available. The blending of multiple coloured fibres in this yarn results in a melange of subtle colours in the finished product. This has the appearance of a fine tweed rather than a single flat colour thus enhancing a Scottish theme. Suitable to wear in all but the hottest and coolest temperatures. NB: This yarn knits to a different tension than the lambswool/silk, therefore is advisable to order 1 size larger than normal. Refer to sizing Guide for approximate finished garment chest measurements.

NEW BOW DETAIL TUNIC:

An elegant addition to the ever popular 'A' line round neck shorter tunic style. Instead of 2 vents at the sides here we have 2 vents at front and back which are accentuated with small ribbed bows. The sleeves also have 1 smaller bow towards the cuff to finish. A lovely piece which can be easily transitioned into evening wear. Sizes S-2XL

LADIES 'A' LINE V-NECK CELTIC KNOT BORDER TUNIC:

Longer in length than the standard Round Neck Tunic and V Neck Cardigan this new V Neck design incorporates contrast edgings and a striking Celtic Knot border above hem and cuffs. The 2 colourways shown are Jade/Pagan and Bright Blue/Navy, but of course there is a vast colour selection to choose from. Sizes S-2XL.

LADIES' ROUND NECK 'A' LINE TUNIC / V-NECK TUNIC CARDIGAN:

Another 2 perennial favourites. Longer length sits below hip. Plain body with attractive narrow contrast edging and side vents. Mock cuff vents with additional coconut shell button detail. Classic timeless elegance. Sizes S – 2XL.

SUPER GEELONG MERINO LAMBSWOOL COLLECTION:

Sourced by 1 of Jackie's yarn suppliers, this has been spun in Italy and is used by some of the highest end knitwear manufacturers based over there. The quality of Super Geelong yarn is right up there with fine quality cashmere etc. It comes from specially bred pedigree lambs in the Geelong region of Australia. To be awarded 'Super Geelong' status, the fibre can only be taken from the first clip of the lambs at 6 months old when the fleece is at its softest. This has been specially twisted for the supplier into a fine 4ply weight which provides a wonderfully soft, warm and luxurious fabric. As it is a more luxury yarn the colour palette is more limited and the 2 new designs have been created along more classic lines.

NEW HAND TOOLED BEADED TRIM TUNIC:

'A' line design similar to the popular Round Neck lambswool pieces, but with subtle hand tooled bead detail on the edging/ cuffs/side vents and collar. Medium weight and luxuriously soft this is another tunic which can easily transition from day to evening. The glass beads are knitted into the fabric making them more secure. As the edging and cuffs are hemmed this gives another layer of fabric between the beads and the body. Wider stand up roll edge neckline for a comfortable yet flattering fit. Although this design follows more classic lines, it can also lean towards a grown up biker style as it will

look great with denim and equally as chic dressed up with a skirt and heels for more formal wear. Sizes S – 2XL

ROUND NECK LONG LINE CARDIGAN:

Every lady needs a longer length cardigan and this will become a timeless classic, but offers a little bit extra with hand tooled cable welts, cuffs, neckband and pocket tops. Quality metal buttons to complete the look. Looser fit with semi fitted sleeves. Can be dressed up or down. Sizes S – 2XL

TEXTURED KNIT SPLIT COWL LONG LINE TUNIC:

Boxy style Split Cowl Neck longer line design. Slightly oversized allowing ease of movement. Neat split Cowl Neck in a loose Fisherman Rib. Semi set in sleeves give a slight drop shoulder effect. Side vents and border detail on hem and cuffs. The stitch produces a slightly raised chevron style texture on the right side of the fabric yet the inside is smooth. Centre back length 30-31" will sit around mid thigh on an average height lady, but this piece could also be belted and worn with leggings and boots as more of a dress style depending on height. Sizes S-2XL

*The Wroncho is measured as 1 piece of fabric which is then folded in half lengthwise so that the original width will be the depth or drape of the garment when worn and the original length of the piece becomes halved to create the across chest measurement.
